## 3. SUSTAINABILITY COMMITMENT

### World Athletics Sustainability Commitment

World Athletics is committed to ensure that its athletics events, which are held all over the world are fully aligned to the principles of sustainability. All organizers of WA events are requested to dedicate themselves intensively to the topics of sustainability. To do that World Athletics developed two tools: a Sustainable Events Management System, which offers best practice guidance in 15 key areas of event planning and delivery, and the Athletics for a Better World Standard (ABW), a certification that measures and scores an event's achievement in sustainable delivery and in delivering an event in alignment with their strategy.

More information:

- [Athlete Sustainability Guide](#)
- [How to be a Sustainable Champion](#)
- [Team Information 2025 | Hypomeeting Götzis](#)

## ***Hypomeeting Götzis Sustainability Commitment***

Götzis has already dedicated itself to sustainability in former years and was repeatedly recognized with the Austrian Eco-Label for "Green Meetings and Green Events".

In 2024, the Hypomeeting has furthermore been awarded the Gold Level standard by World Athletics as part of the 'Athletics for a Better World' (ABW) sustainability programme and aims to obtain it again in 2025. We pay particular attention to

- Increased energy efficiency, waste avoidance as well as CO2 reduction
- Aspects of regional value creation and social responsibility
- Sustainable mobility and environmentally friendly arrival and departure of guests
- Eco friendly accommodations
- Sustainability requirements for the venue and catering
- Green procurement, materials and waste management
- Social aspect and communication to raise awareness

More details are published [here](#).

We know that we are not yet perfect. For us, it's important to get started and get DOING. And in the spirit of the sport: We want to get better and better from now on!

We hope that all athletes and visitors will be able to perceive the positive changes on site, be part of it and help us spread the word.

By the way you can drink tap water in Austria anywhere you happen to be – hotels, apartments, restaurants, public toilets, outdoor public fountains etc. – as Austria has some of the world's cleanest tap water.

## ***Fair Play and Antidiscrimination***

For us as organizers of the Hypomeeting Götzis, fair play is a matter of course. Fair Play refers not only to the observance of the competition rules, but above all to the attitude of all participants.

Our principles:

- Recognition of and compliance with the competition rules
- Respectful interaction between sports officials, athletes and coaches
- Respect for the referees and judges
- Respectful behaviour of the audience
- Respect and consideration for the opponent
- To "limit" the winning motive (no victory at any price)
- Maintain attitude in victory and defeat

Our anti-discrimination principles can be found [here](#).

We are furthermore committed to the Safeguarding Policy of World Athletics and to its principles of non-discrimination and respect for individuals' rights

World athletics - safeguarding

Any costs incurred for example through additional medical care after first aid or transport to the hospital by ambulance or helicopter must be paid by the patient and/or team through an appropriate medical insurance coverage.
